PROFESSIONAL SUMMARY

Frontend developer with hands-on experience building SaaS and livestreaming platforms using React, Next.js, and Tailwind. Founder of Stream Tech (Colombia), where I worked across product, delivery, and operations—deploying and maintaining streaming infrastructure and automations on cloud providers (GCP, AWS, Linode). Now based in Buenos Aires and open to roles in frontend development with exposure to DevOps and cloud foundations. Strong focus on reliability, performance, and maintainable UI patterns.

CORE SKILLS

- Frontend: React, Next.js, Vite, JavaScript (ES6+), TypeScript (basics), Tailwind CSS
- DevOps & Cloud (foundational): Docker, Linux, Nginx, CI/CD (GitHub Actions), AWS/GCP/Linode (basics)
- Version Control: Git & GitHub, trunk-based workflows
- Practices: Responsive UI, Mobile-First, Accessibility-first mindset, Component-driven development

EXPERIENCE

Founder & CEO — Stream Tech S.A.S | Remote — Colombia & Argentina | 2024–Present

- Built and maintained web frontends for virtual events and livestream experiences using React, Next.js, and Tailwind.
- Coordinated deployments and cloud resources (GCP, AWS, Linode) to support streaming workloads and internal tools.
- Worked on automations and internal dashboards to help TV/radio clients manage streams.

Frontend Developer — TBS Wireless Services S.A.S | Remote (Bogotá) | 2023–2024

- Implemented a modern landing experience with React, Next.js, and Tailwind CSS.
- Collaborated closely with design to ensure brand consistency and high-quality UI.

Frontend Developer — Freelance | Remote | 2023

- Delivered custom web sites and small platforms for SMEs and non-profits.
- Ensured responsive design and performance across devices.

SELECTED PROJECTS

- Stream Management Dashboard (in progress): Admin panel concept to manage live channels (Ant Media Server Community Edition), delivering stream URLs, iframe embeds, HLS/M3U/M3U8 endpoints, and basic status info.
- Landing redesigns and microsites for SME clients (various): Focus on clear UX, accessibility, and performance budgets.

LEADERSHIP & ACTIVITIES

- Stream Tech: Participated in a national entrepreneurship program (2024) focused on validation, mentorship, and MVP iterations.
- Coordinated small agile efforts to design, test, and ship improvements for cloud-based streaming services.

EDUCATION

Platzi — Web Development School | Certifications in Frontend Development and Programming Fundamentals (2022–2023).

LANGUAGES

- Spanish: Native
- English: Intermediate (actively improving)

INTERESTS

Informatics and technology in general, microelectronics, photography, and audiovisual production as a technical operator. Dog training and behavior understanding as an active personal project. Interested in contributing to companies that integrate AI-powered tools and workflows in their daily operations.
